EXECUTIVE SUMMARY

Aspiring Data Analyst with a B.Sc. in Physics, Chemistry, and Mathematics and postgraduate training in Data Science and Analytics. Strong understanding of the end-to-end data analysis process, including data extraction, cleaning, transformation, analysis, and visualization to identify patterns and generate actionable insights. Proficient in SQL, Python, Excel, and Power BI, with hands-on project experience in business intelligence, data analytics, and predictive modeling. Familiar with Machine Learning, Deep Learning, and Generative AI, with a strong analytical mindset and a commitment to continuous learning. Eager to apply technical skills to solve business problems and support data-driven decision-making.

EDUCATION

Imarticus Learning Institute, Delhi
Postgraduate Program in Data Science & Analytics | **Mar 2026 – Present**

Indira Gandhi National Open University (IGNOU)
Bachelor of Science (B.Sc.) – Physics, Chemistry & Mathematics | **Jan 2023 – Dec 2026 (Expected)**

Dr. Rajendra Prasad Kendriya Vidyalaya
Class XII | **2022**

CORE CAPABILITIES

Data Analysis & Preparation: Python (Pandas, NumPy), SQL (MySQL), Excel, Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis

Business Intelligence & Visualization: Power BI (Power Query, DAX), Tableau, Dashboard Development, KPI Reporting

Machine Learning & AI: Machine Learning, Classification, Clustering, Predictive Modeling, Deep Learning, Generative AI

Tools & Development: Streamlit, Git, GitHub

Soft Skills: Analytical Thinking, Problem-Solving, Attention to Detail, Communication, Teamwork, Adaptability

PROJECTS

1. Sales Lead Intelligence | Python • SQL • Machine Learning • Streamlit

- Analyzed sales lead data to identify conversion patterns and factors influencing lead quality and sales outcomes.
- Applied data preparation, exploratory analysis, and machine learning techniques to support lead classification and prioritization.
- Developed an interactive Streamlit application to present analytical findings and support data-driven sales decisions.

2. Supply Chain Performance & Inventory Strategy Analysis | MySQL • SQL • Power BI • DAX

- Developed a relational database to analyze sales, inventory, procurement, supplier, and warehouse performance.
- Used SQL to investigate business performance and applied ABC-XYZ analysis to classify products by value and demand variability.
- Built a five-page Power BI dashboard to monitor operational performance and support inventory management decisions.
